Are you able and willing to help others understand new ideas?
Do you have leadership skills among other students?
Do you have a love for a school subject that you could share?
(Think back to that favorite class! 😊)

**Have you thought about becoming an ACADEMIC PEER TUTOR?**

Wilcox High School is looking for motivated ACADEMIC PEER TUTORS that can assist other students in their classes! Some comments from current tutors and their teachers include:

- Teacher: The tutor “has been very helpful in guiding the students to an understanding of antiquated and difficult words and ideas in my AP class.”
- Teacher: The tutors “working with me were instrumental in completing a lab involving the electrocardiogram.”
- Teacher: “I would say all three tutors have been a tremendous asset to the class.”
- Peer Tutor: “I feel proactive and helpful.”
- Peer Tutor: “My teacher always has things for me to do. It’s fun to interact with younger students.”
- Peer Tutor: “The tutoring has helped me learn to take initiative and work with other students in the science environment.”

Consider selecting “Academic Peer Tutoring” when you enroll for next year!
This course counts for full elective credits; it is not the same as a “TA” position.

If you have any questions, please see your counselor or Mrs. Peoples in B114.
